Applied Project Management (10 days)

March 3, 2021* | Distance Learning | $1,950/person
September 15, 2021* | In-Person | $1,950/person

Every organization has experienced the high cost and waste of poor planning. A disciplined approach to project management can greatly reduce the pains of decreasing customer satisfaction, project cost overruns, and schedule and deployment delays. Following the Project Management Book of Knowledge, our Applied Project Management program is an Active Learning Model (ALM)-based course where participants learn tools and techniques for planning, executing, and monitoring strategic initiatives.

Participants apply their learning in real-time by working on a project case study.

Upon completion it satisfies the requirements to sit for the Project Management certification.

Train the Trainer (1 day)

May 19, 2021 | In-Person | $595/person

Welcome to Train the Trainer with MMTC's Active Learning Model. This class is offered as a hybrid, which includes an hour and a half of online prework. It is followed by a oneday, eight-hour, hands-on skill development, practice, and feedback session. The training development and delivery model will increase your effectiveness and confidence as a trainer. You will practice and receive feedback as you develop, deliver, and evaluate training activities.

For more than 30 years, we have been helping small to mid-size organizations and their staff achieve excellence in their fields. By providing them with personalized services and skills training, we have been able to watch them grow exponentially over the years.

Contact Kristin Smith by calling 715-889-0182 | or email: ksmith@northerninitiatives.org, she can assist you in determining which expert can best address your needs.
