

# Your Colon. Your Choice.

**We invite you** to find out more about your choices and your health at the Colorectal Cancer Health Fair. Sponsored by the Mount Sinai Endoscopy Center, the Division of Gastroenterology and the Office of Community Engagement for the Tisch Cancer Institute, this event is being held in honor of Colorectal Cancer Awareness Month. Stop by our information tables and meet our experts. Check out the 20-foot-long walk-through inflatable model of the colon—known as the **“Rollin’ Colon”**—provided by the Colon Cancer Challenge Foundation. You’ll find it fun, as well as informative.

*It's important to be screened regularly for colorectal cancer. Many people are familiar with a colonoscopy, but did you know that there are two other tests available? And you can do both at home, at your convenience. Most men and women over age 50 should be tested regularly, but more than one-third of them are not currently being screened.*

**Join us on Wednesday, March 11, from 9:30 am to 2:30 pm in the Guggenheim Pavilion at The Mount Sinai Hospital.**

1468 Madison Avenue, New York, NY 10029

**For more information, please call 212-659-5546.**
