

**Emanuela Taioli, MD, PhD**, comments on a new study revealing that consuming two or more servings of sugary drinks a day may raise one's risk of dying from an obesity-related cancer. [[TODAY](#)]

**Samir Parekh, MD, MBBS**, discusses his study finding that T-cell redirection therapy shows promise as salvage therapy in relapsed/refractory multiple myeloma. [[Targeted Oncology](#)] [[Physician's Weekly](#)] [[KXLY](#)]

**Krzysztof Misiukiewicz, MD**, discusses when to use targeted therapy for patients with iodine-refractory thyroid cancer. [[Targeted Oncology](#)]

**Cardinale Smith, MD, PhD**, discusses her research into the challenges with the hospital-at-home model of care for cancer patients. [[ASCO Daily News](#)]

**Deborah Doroshow, MD, PhD**, interviews cancer survivors for the fourth installment of the Cancer History Project's series of oral histories. [[The Cancer Letter](#)]

**John Mascarenhas, MD**, discusses clinical trials of pacritinib, an anti-cancer medication, for patients with myelofibrosis, a rare type of bone marrow cancer that disrupts the body's blood cell production, with lower platelet counts. [[Targeted Oncology](#)]

**Scott Roof, MD**, discusses a shift in thinking strictly about curing patients with head and neck cancer to how to also ensure best functional outcomes. [[Cure Today](#)]

**Jose Javier Bravo-Cordero, PhD, and Chandrani Mondal, PhD**, have identified a regulatory protein that enables breast cancer cells to remain in a sleeping state and go undetected by the body's immune system and targeted therapeutics. [[GEN](#)] [[Technology Networks](#)] [[Wish TV](#)] [[Medical Dialogues](#)] [[Elmundo](#)][[Revyuh](#)] [[Mirage News](#)] [[Medical Xpress](#)] [[ITN Online](#)]

**Emanuela Taioli, MD, PhD**, discusses the lack of diversity among doctors and the impact this has on New Yorkers seeking health care. [[NBC New York](#)]

**Stephanie Blank, MD, Monica Prasad-Hayes, MD**, and patient Amanda Fitzpatrick discuss uterine cancer, a disease that mostly impacts women over the age of 50. [[CBS News](#)]

**Michael Zeidman, MD**, explains that while physical exams and imaging can give doctors an idea of what stage a cancer may be, surgery is necessary to confirm the diagnosis. [[NBC Today](#)]

**Mount Sinai Health System** hosts its Annual Push-Up for Prostate Cancer Challenge to raise awareness for Prostate Cancer Awareness Month (September). [[WABC](#)]

**Josep Llovet, MD, PhD**, analyzes the molecular and immune traits of advanced hepatocellular carcinoma in patients undergoing anti-PD-1 treatment. [[Medpage Today](#)]

**David Anderson, MD**, explains that mammograms are less effective at detecting breast cancer in women who have dense breasts. [[PIX 11](#)]

**Mount Sinai Health System** hosts its Annual Push-Up for Prostate Cancer Challenge for Prostate Cancer Awareness Month (September). [[Harlem World Magazine](#)]

**Laurie Margolies, MD, and Jean Stenard, Program Manager of the Mobile Mammography Program at Mount Sinai**, are honored by ABC's *Good Morning America* for their work with Mount Sinai's mobile mammography van, which provides breast cancer screenings throughout New York City, and receive \$20,000 from designer Kendra Scott towards the program. [[Good Morning America](#)]

**Joshua Richter, MD, and Peter Forsberg, MD**, review options for relapsed/refractory multiple myeloma treatment sequencing, initiating treatment, and the mechanism of action for selinexor, an anti-cancer medication. [[Cancer Network](#)]

**Nicholas Rohs, MD**, discusses a study revealing that air pollution can cause non-small cell lung cancer in non-smokers. [[Medpage Today](#)]

**Charles Powell, MD, MBA**, discusses the diagnosis and treatment of interstitial lung disease in patients receiving anticancer therapy. [[Healio: Hematology/Oncology](#)]

**Amy Tiersten, MD**, and patient Sharon Sumliner, discuss Enhertu, a drug that helped her battle HER2-low breast cancer. [[ABC 7 NY](#)]

**Amy Tiersten, MD, and Nina Bickell, MD**, discuss the importance of providing equitable care in early breast cancer diagnosis. [[Medscape](#)]

**The Tisch Cancer Institute** will receive \$5,000 in the next month for cancer research from off-duty firefighters at the Binghamton Fire Department, who stood in the streets to collect money in boots for the Retired Professional Firefighter's Cancer Fund. [[WBNG](#)]

**Nicholas Rohs, MD**, discusses the clinical implications and limitations of a recent trial that revealed the medication atezolizumab outperforms chemo in poor-prognosis non-small cell lung cancer. [[Medpage Today](#)]
