

September Challenge: Educator Engagement

Hello ELC Pasco & Hernando Teachers & Directors!

Welcome back to a brand-new school year! We're excited to kick off our September Back-to-School Educator Engagement Challenge and help you start the year strong with engaging, meaningful learning experiences for your students!

This month, we're focusing on three powerful tools to support your classroom from day one:

- Watch MarcoPolo Learning videos to spark curiosity and introduce new concepts.
- Use CLASS-aligned resources to promote meaningful interactions and support high-quality instruction.
- Leverage Guided Mode to pause, ask questions, and encourage rich conversations that deepen student learning.

How to Participate

Throughout the month of September, incorporate videos, CLASS-aligned resources, and Guided Mode into your daily lessons. Guided Mode makes it easy to create interactive learning experiences while helping students build critical thinking, language, and social-emotional skills. The more you engage with these tools, the more opportunities you'll create for meaningful classroom learning!

The educator with the **highest overall engagement** using videos, CLASS-aligned resources, and Guided Mode throughout the month of September will win a prize!
