

Teaching Strategies GOLD: A Two-Part Training on TSG Child Assessment

Teaching Strategies GOLD is an observation-based assessment system for children from birth through kindergarten. It uses 38 research-based objectives aligned with school readiness standards to allow ongoing assessment through daily activities. This approach provides educators with a comprehensive view of each child's development, guiding instruction and supporting learning goals. Unlike standardized tests, it offers a continuous and contextual understanding of learning.

5 In-Service Hours - FREE
.5 CEUs - \$10

NOTE:
Attendance at
both sessions is
required to receive
a certificate.

- Explore methods for embedding this tool seamlessly into everyday interactions.
- Discover new ways to capture, organize, and store notes, photos, videos, and children's work samples as they occur.
- Achieve inter-rater reliability with ease by completing this two-part course.
