Elevate Instruction with MarcoPolo Learning's Professional Development Courses

About MarcoPolo Learning

MarcoPolo Learning is a globally recognized and award-winning developer of top-tier educational content and pedagogical support resources, all aligned with the Classroom Assessment Scoring System® (CLASS). Our product, MarcoPolo For Educators, is crafted to prioritize children's interests, motivations, and perspectives. By fostering and respecting young children's autonomy in initiating and participating in activities, we've created a product that is thoughtfully designed to support their developmental needs.

Our Approach to Professional Learning

- **Tailored for Early Childhood Educators**
Our courses are specifically designed for early childhood educators, incorporating insights from educational leaders, current research on adult learning, and data-driven approaches to highlight key learning opportunities.
- **Practical Classroom Instruction**
Educators will gain hands-on experience with best practices in early childhood education, receiving actionable strategies that can be readily applied in their classrooms.
- **Ongoing Support and Reinforcement**
Concepts are reinforced through a mix of live and on-demand sessions, interactive activities, community reflection, and the MarcoPolo For Educators platform, ensuring continuous learning and application.

MarcoPolo

For Educators

"I am impressed with the MarcoPolo For Educators visual support. I can see the advantage of having a variety of materials to improve the learning experience. I am able to select skills and information that will support learners in different levels of academic development."

Cacilda Qureshi, VPK Teacher

"I've gained so much, this is the best professional development course I've taken! I'm excited to change my plans to incorporate MarcoPolo videos."

Heather Gasowski, VPK Teacher

"I really have gained a better understanding of ways to improve in the classroom. This class is very interesting. I love how the videos are short yet so informative. Sometimes when I am taking a class the interest gets lost because the content is too long. This is the total opposite. I also can tell the passion of the instructor!"

Agnella Panzarella, Child Care Administrator
