

April Challenge: Family Engagement

Hello ELC Pasco & Hernando Teachers and Directors!

April is here, and we're excited to announce this month's Family Engagement Challenge! The teacher with the highest percentage of families registered in MarcoPolo For Families by the end of April will win a prize bag! To make sure families can access the app, please update your class list in MarcoPolo for Educators.

Need to know how?

1. Log into MarcoPolo For Educators
2. Click "My Class" at the top right
3. Click "Students" on the left-hand side
4. Click "Add Child" to add new students to your list
5. Click the gear icon to delete students who are no longer in your class

Track family access by student status:

- Registered: All set
- Pending: Click the gear icon and select Resend Invite

Families will receive an email or text to create their account and access the MarcoPolo For Families app.

Why invite families?

Studies show that family engagement in school can significantly improve student academic performance, behavior, and overall well-being. When families connect through MarcoPolo, they can better support what students are learning in the classroom.

Thank you for your continued support!
