

Dear Parish Family-

I hope this finds you well. I am reaching out to you for assistance. The Parish is setting up a Covid-19 Assistance Team to help those who are shut in and require help to get groceries and prescriptions.

Here is what I need from you: 3 things

1. **If you need help** e-mail [covidhelp@saintaloysiusonline.org](mailto:covidhelp@saintaloysiusonline.org) please put in the subject line of your e-mail "I need help". Give your name, address and a phone number you can be reached at for assistance.
2. **If you CAN Help** e-mail [covidhelp@saintaloysiusonline.org](mailto:covidhelp@saintaloysiusonline.org) please put in the subject line "I can help" Give a name, address and phone number you can be reached at to pair you with someone in need.
3. **Everyone can help by alerting us to those you know who need help** at [covidhelp@saintaloysiusonline.org](mailto:covidhelp@saintaloysiusonline.org). Be sure to check with the person to see if they are open to being helped and provide their contact information.

For the safety of everyone involved those helping will only bring the packages to your front door or leave them in your garage, they cannot enter your home.

Kyle Johnson and his wife Terri have agreed to be Captains of this effort, they will create a database of those who need help and those who would like to help and pair these up with one another.

As my Doctor said to me the other day, "This crisis is bringing out the best in human nature and in some instance the worst but mostly bringing out the best."

Let's keep bringing out the best as a parish!

Peace and Good – Fr. Bambrick
