

SPRING PRETRAVEL PROGRAM

Where future travel players take shape.

The pretravel program is designed for young players ready for more structure, learning, and team play, without the full commitment of travel soccer. This program bridges the gap between grassroots soccer and the travel environment, helping players build confidence and strong fundamentals.

WHAT PLAYERS LEARN

- Fundamental technical skills
- Structured training habits
- Game understanding and teamwork
- Confidence in a team-based environment

Players are introduced to the standards and expectations of the Pegasus pathway in a supportive, age-appropriate setting.

**Less commitment than travel soccer.
The right next step for developing players.**
