

US Census

In the midst of everything else going on, don't forget about the US Census. If you are at home looking for something to do, take 10 minutes to fill out the census form for your household (all who live in your house go on one form).

If you haven't responded to the 2020 Census, it's not too late. Households that have not yet responded to their census invitation should have started to receive a paper questionnaire in the mail as of April 8.

That means, while Californians are at home social distancing, **they can now respond to the census by mail, online or by phone.**

- To complete the census online, go to my2020census.gov.
- To respond by phone, call 844-330-2020. Or go to [https://2020census.gov/en/contact-us for non-English](https://2020census.gov/en/contact-us-for-non-english).

Completing the census only takes about 10 minutes and will help your community for the next 10 years! Census participation determines each community's share of federal funding for healthcare, schools, roads, and more for the next decade.
