

# Summer Family Fun Days

Well, a hot summer is upon us and school is out. If you need something fun and educational for you and the kids, you should check out our [Family Fun Days](#) happening on two Wednesdays of every month.

We are offering two hours of programming for children on various outdoor topics such as kids' survival basics, using a compass, math in nature, and weather as well as dragonflies. The cost is \$6 per class and parents are free!

Be sure to preregister as we expect the classes to fill up quickly. See you at the JBS Wetland Center soon!
