

Maximus Pedestal Systems

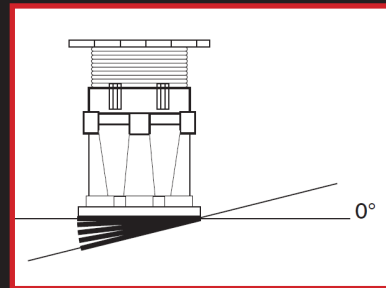

JUNIOR &
ACCESSORIES

Both Maximus Senior & Junior Pedestals have a triple screw to achieve superior adjustment. Turn counter-clockwise to increase the height, & clockwise to decrease the height as required.

4 mm (5/32") Spacer Tab included with each pedestal.

Use stackable slope correctors until the pedestal is level.

Application with a track requires timber joist brackets

Maximus Pedestal Benefits:

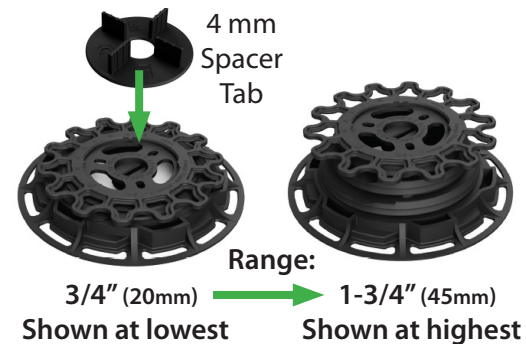

- Rapid water outflow
- Durable & load rated
- Sound acoustic performance
- Speed of installation
- Increase thermal insulation
- Excellent absorption for expansion
- Elevated system to run services, conduits & pipes
- Ease of maintenance
- Installs level with seamless connections

Maximus Junior Maximus has options available to retrofit an elevated flooring system over existing substrates or new installs for areas with limited or low level heights.

Retrofitting and Low Height solutions

*Most applications use the Senior Pedestal but for installations requiring 3/4" to 1-3/4" of rise, use the Junior Pedestal.

Junior Pedestal:

* Junior Pedestal has a fixed head. Slope adjustments made with Slope Corrector (MPSSCO).

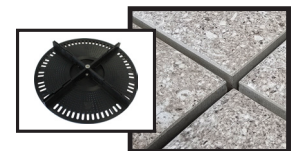

Item #	Description	Case Qty
