

**T-STEM ACADEMY students are changing the
future with an Hour of Code**

Computer Science Education Week

December 3-7, 2018

Dear Parents,

We live in a world surrounded by technology. And we know that whatever field our students choose to go into as adults, their ability to succeed will increasingly depend on understanding how technology works.

But only a tiny fraction of us are learning how technology works. Only 35% of all high schools teach computer science.

That's why our entire school is joining in on the largest learning event in history: The Hour of Code, during Computer Science Education Week (December 3-9). More than 100 million students worldwide have already tried an Hour of Code. Our Hour of Code is making a statement that T-STEM Academy @ East High School is ready to teach these foundational 21st-century skills. To continue bringing programming activities to your students, we want to make our Hour of Code event huge. I encourage you to volunteer, reach out to local media, share the news on social media channels and consider hosting additional Hour of Code events in the community.

This is a chance to change the future of education in Memphis. Tennessee.

See <http://hourofcode.com/us> for details and help spread the word.

Thank you for your support!

Mr. Harris &

Mrs. Penn
