

None of us want to think about loss of memory issues, but almost certainly we have all been touched by this problem, either with someone that we love and care for or ourselves. So, do you know the difference between the various types of Alzheimer's and Dementia? Are you aware of the warning signs of these diseases, and what are simply age-related signs? If not, then I urge you to attend the presentation on the 10 Warning Signs of Alzheimer's following the ten o'clock service on Sunday, October 16th, in the sanctuary. It will be presented by a representative of the Alzheimer's Association, and open to the public. The Stephen Ministry team here at St. Philip's, through the work of our own M.J. Martin, is sponsoring this program. There will be numerous materials available for you that can be of a great deal of assistance in helping you to educate yourself, plan, and take action if necessary.
