

## **A message from Fr. Eric:**

Once upon a time, it was a matter of pride and loyalty to never take a sick-day. In extremely rare cases, a person has extraordinary health and does not get sick – meaning many times sick people went to work. The reality is that most of us succumb to the common cold, the seasonal flu, or other illnesses. With the advent of COVID, our perceptions and expectations must change as a matter of neighbor love.

If you don't feel well, please stay home. Watch the service on the live feed or wait for the office to send the link to you shortly after the 10am service.

If you don't feel well, please stay home. If you have a meeting or event at the church, please let someone know you are staying home due to illness and notes can be forwarded to you.

If you don't feel well, please stay home. It doesn't have to be COVID that you are sick with, if you have a cold, the flu, or other illness, please practice neighbor love and stay home until you are feeling better.

Remember, everyone is invited at their own discretion to wear a mask, whether to church, or any other meeting or event.

Be assured that if any of your clergy do not feel well, we will likewise practice neighbor love and stay home until recovered!
