

## SPOTLIGHT ON PASTORAL CARE

The Pastoral Care Board's primary purpose is to bring together those ministries at St. Philip's that help us care for one another. So, did you know about the Medical Equipment Library? Yes, we have one. And it is headed up very ably by Michele Barkalow! She maintains a list of equipment such as walkers, wheelchairs, canes, and other necessities that she either stores herself or knows where that particular piece of equipment is located. Before you buy medical equipment that you may only need for a short time, please check with Michele first. Better yet, if you have equipment stored that you are not using and would be willing to donate, she would love to hear about that too.
