

F&F March Come and See Submission

### **Finance and Facilities Board**

AudioVisual Committee: Thanks to an anonymous donation, we are embarking on a project to improve the audiovisual quality in our Sanctuary. We have formed a committee (Don Halbert, Sue Mills, Ricky Evans, Maitland Barnes, Jeff Krantz), spoken with local churches about their solutions, developed and gained approval for a Request for Proposal and have met with 4 different local A/V companies with experience in A/V solutions for worship spaces. The RFP has been provided to these companies and we are awaiting their responses. Our objectives are: 1. To improve the sound quality in the Sanctuary, 2. To investigate and price sound systems for the hearing impaired and 3. To improve the sound and visual quality and simplify and standardize the Live Stream and taping of our services. Stay tuned for more updates as we progress. Please reach out to a committee member if you have any comments, ideas or expertise in this area.

Columbarium Committee: We have formed a committee (Don Halbert, Pam Hayes, Debbie Evans, Jim Belvin, Harry Singley) to investigate the costs and construction of a Columbarium on the St. Philips campus. Our Memorial Garden will run out of useable space in the coming years, so we are developing a long term strategy for interment. The most likely solution is to construct a Columbarium that will accommodate our needs long into the future. We have reached out to other churches in the area to understand how they have dealt with this issue and are contacting companies that specialize in the design and construction these types of structures. As above, stay tuned for more updates as we progress, and if you have comments, ideas or experience, please reach out to a committee member.
