The **World Affairs Councils of America** is an independent, nonpartisan organization dedicated to engaging the public and leading global voices to better understand the world, America’s international role, and the policy choices that impact our daily lives and our future.

Established in 1986 as a nonprofit membership organization in Washington, DC, the World Affairs Councils of America (WACA) carries out its mission by:

- **Supporting more than 90 World Affairs Councils across the United States** and promoting their programs and educational initiatives for diverse, multi-generational audiences. We bring the world to classrooms, C-suites, and conferences in the nation’s capital and town hall-style forums in your community.
- **Developing Councils’ convening power nationwide** by providing face-to-face connections and dialogue with global leaders, business executives, policy experts, social innovators, and distinguished opinion makers.
- **Exploring new ideas in dozens of dynamic Council events each week** that shape public discourse on a range of critical issues, including: national security; the economy and international trade; global health; energy and the environment; immigration; human rights; education; and culture.
- **Challenging the next generation to develop leadership skills and global acumen** so that our communities can better compete, collaborate, and make informed decisions.
- **Partnering with organizations** that seek to reach out to “grassroots” and “grasstops” citizens, disseminate research, mutually expand networks, and transform how people, enterprises, and governments think about the world.
- **Expanding informed, respectful public discourse about international relations and current events** through WACA conference calls, podcasts, information services, and social media. We are digitally accessible from anywhere in the world.

The World Affairs Councils of America takes no institutional positions on matters of policy. Any opinions expressed in the resources are the views of the authors.
This year, we host the 21st Annual Academic WorldQuest™ (AWQ), the flagship education program of the World Affairs Councils of America. One of the greatest challenges facing our nation and our schools across the country is preparing our youth for the globally interconnected world of the 21st Century. America’s ability to face economic and security challenges and seize new opportunities depends on an informed citizenry and a well-educated workforce. Academic WorldQuest™ is a unique, competitive educational program that exposes youth to the world outside our borders and prepares them for the challenges and opportunities of the 21st Century.

Founded in 2003, Academic WorldQuest™ is a team game testing high school students’ knowledge of international affairs. In the game, four-person teams compete by answering questions divided into ten unique and engaging thematic categories. The winner is the team with the most correct answers.

During the academic year preceding The Carlos and Malú Alvarez 2022 Academic WorldQuest™ National Competition in the spring, 4,000 to 5,000 students participated in local AWQ competitions hosted by some 50 World Affairs Councils across the United States. This information packet includes the AWQ Study Guide, which provides detailed resources on each of 10 question categories to help students and teachers to prepare for the competition (with the exception of the Current Events category). Questions for the competition are drawn from the resources in the AWQ Study Guide. One winning team is invited to represent their high school, city, and local World Affairs Council at The Carlos and Malú Alvarez Academic WorldQuest™ National Competition, held in the spring each year – with last year’s 2022 Competition held hybrid (in-person and virtually).

Academic WorldQuest™ contributes to the national Common Core State Standards Initiative by fostering reading comprehension skills for informational text.

To find a local competition in your area, look on the World Affairs Councils of America website to locate your local World Affairs Council.
ACADEMIC WORLDQUEST™

AWQ 2022-2023 CATEGORIES

The categories for this year’s AWQ National Competition have been selected by the World Affairs Councils of America, with input from member World Affairs Councils across the country, to reflect several of the most critical global and U.S. foreign policy issues:

1. Securing the Future of the World's Wildlife
2. The Arctic Council: Frozen Cooperation
3. Atrocity Prevention and Accountability
4. Combating Global Food Insecurity
5. Economic Sanctions - A Double-Edged Sword
6. Great Decisions
7. Country in Focus: Ethiopia
8. The Future of Supply Chains
10. Current Events

STUDY GUIDE OVERVIEW

The official Academic WorldQuest™ Study Guide has been prepared by the World Affairs Councils of America. Questions for all of the above categories, with the exception of Great Decisions and Current Events, are drawn from the resources included in the AWQ Study Guide.

EVENT DETAILS

The Carlos and Malú Alvarez 2023 Academic WorldQuest™ National Competition honors the tremendous dedication and philanthropic support of WACA Board Member Carlos Alvarez and his wife Malú to our flagship program and the Academic WorldQuest™ Endowment Fund. (For information on making a gift to the AWQ Fund, please visit WACA’s website: www.worldaffairscouncils.org/Support.)

The National Competition is attended by 200-250 of the nation's most promising high school students each year, along with their parents, teachers, and chaperones. The 4-hour AWQ competition is a unique opportunity for students to visit the nation's capital, perhaps for the first time.
All teams that compete in The Carlos and Malú Alvarez 2023 Academic WorldQuest™ National Competition must win a local AWQ competition sponsored by a Member Council of the World Affairs Councils of America. Teams may compete in only one (1) local competition in order to qualify to compete in the National Competition. A team consists of four (4) Primary Teammates who are currently high school students (freshman–senior year). No more than four players per team will be able to compete in the National Competition. Teams of fewer than four students are allowed to compete, but this is strongly discouraged.

**RULES AND REGULATIONS**

**QUALIFYING FOR AWQ 2022-2023 NATIONAL COMPETITION:**

All teams that compete in The Carlos and Malú Alvarez 2023 Academic WorldQuest™ National Competition must win a local AWQ competition sponsored by a Member Council of the World Affairs Councils of America. Teams may compete in only one (1) local competition in order to qualify to compete in the National Competition. A team consists of four (4) Primary Teammates who are currently high school students (freshman–senior year). No more than four players per team will be able to compete in the National Competition. Teams of fewer than four students are allowed to compete, but this is strongly discouraged.

**HOW TO PLAY**

There are 10 rounds in the competition, each round having 10 questions. Teams will have 45 seconds at the local competition and 30 seconds at the National Competition to answer each question. NOTE: For the AWQ National Competition, all of the categories are multiple choice. For Local AWQ Competitions organized by Councils, you may use the multiple-choice format for the Current Events category.

**SCORING**

One (1) point is awarded for each correct answer. No penalty for incorrect answers or no answer. The team with the most correct answers out of all 100 questions is declared AWQ Champion. If, at the conclusion of the competition, there is a tie for 1st through 3rd place, tiebreaker rounds will be played.

**REGULATIONS**

A team consists of four (4) players. Player substitutions are not allowed.

Teams are not allowed to consult with the audience, wireless devices, cell phones, other teams, books, or other written materials at any point during the competition. Any team found by World Affairs Councils of America judges, staff, or volunteers to be violating this rule will be automatically disqualified and ejected from the Competition. If a team believes another team is cheating, a player may alert a World Affairs Councils of America representative.

However, if the other team is not found to be in violation of any rules, the accusing team will forfeit two (2) points.
All questions for this year’s Carlos and Malú Alvarez Academic WorldQuest 2022-2023 program will be drawn from the sources in this Study Guide (with the exception of the Current Events category, which will be drawn mostly from WACA’s Weekly World News Update). This is a primary source that contains articles from a variety of media organizations worldwide.

The overall aim of this AWQ Study Guide is to help you learn about important international topics of the day and to help prepare you for your future careers. More specifically, to prepare for the AWQ competitions, when reading the material, use your critical thinking skills to synthesize and understand the material. WACA often creates questions that are not straight memorization types and will ask questions instead that require broader synthesis of the required readings.

The AWQ Study Guide is best viewed in a current version of Adobe Reader. If you are having trouble clicking any of the below links, cut and paste them into your browser instead of clicking them, or try a different browser.
SECURING THE FUTURE OF THE WORLD'S WILDLIFE

Animals, plants, and the ecosystems they live in make up the world around us. Environmental and human-related factors have placed wildlife at risk of endangerment and extinction. Climate change has increased annual temperatures in areas where certain species are unable to sustain themselves and deforestation and animal hunting have destroyed habitats and contributed to the extinction of many species. Failure to act now will only contribute to further endangerment of species worldwide. This topic will explore the importance of biodiversity and the variety of conservation efforts aiming to protect the future of the natural world.

THE ARCTIC COUNCIL: FROZEN COOPERATION

The Arctic Council is an intergovernmental organization that promotes research and facilitates cooperation among Arctic countries. Established in 1996 by the signing of the Ottawa Declaration, member states of the Council include Canada, Denmark, Finland, Norway, Russia, Sweden and the United States. The Chairmanship of the Arctic Council rotates every two years among the Arctic States. The current chair for the Arctic Council is the Russian Federation (2021-2023). In March 2022, Canada, Denmark, Finland, Iceland, Norway, Sweden and the United States declared that they will not attend meetings of the Arctic Council under Russian chairmanship in response to the Russian invasion of Ukraine. For this topic, we will investigate what happens to an intergovernmental organization when member states are at odds.

ATROCITY PREVENTION AND ACCOUNTABILITY

Atrocity crimes — war crimes, crimes against humanity, genocide and the crime of aggression — threaten U.S. and global security. Current events in Ukraine, Myanmar, Afghanistan, and other countries underscore the continuing need for the United States to play a leading role in preventing atrocities and holding perpetrators accountable. This category will explore developments in U.S. and global policy around atrocities and incorporate current and historical case examples.

This category is sponsored by the United States Institute of Peace, a national, nonpartisan, public institution created by Congress and dedicated to helping prevent, mitigate and resolve violent conflict abroad.

COMBATING GLOBAL FOOD INSECURITY

After steadily declining for over a decade, global hunger is on the rise again with over 828 million people going hungry every night. The ongoing conflict in Ukraine has resulted in a disruption to food markets and has aggravated the already existing food crisis caused by conflict, climate and COVID-19. In 2022, we have watched as food prices have reached an all-time high and countries are on the brink of famine. What can be done to alleviate these strains? For this topic, we will look at how countries and humanitarian organizations have taken immediate action to mitigate the risks of food insecurity.

ECONOMIC SANCTIONS – A DOUBLE-EDGED SWORD

Whether faced with aggressive military actions by one country against another, interference by one country in another country’s elections, intolerable human rights violations, or the illegal testing of nuclear weapons, economic sanctions are among the first foreign policy options discussed as a response. Sanctions can be a strategic and symbolic way to exert leverage but sanctions can also bring along potential dangers after implementation. For this topic, we will analyze the decision to use sanctions and the effectiveness of these sanctions on their directed targets.

GREAT DECISIONS

NOTE: In the 2022-2023 AWQ Competition, WACA has decided to modify the way we present Great Decisions as a topic. In previous years, we used all 8 topics in the AWQ Competition and recommended the same for local AWQ Competitions. Below is the outline for this year's Great Decisions Category.

Great Decisions is an annual program that focuses on critical international issues provided by the Foreign Policy Association, a member of the World Affairs Councils of America. This year's Great Decisions topics are:

- Changing Demographics
- Outer Space
- Climate Change
- Russia and the U.S.
- Myanmar and ASEAN
- Quad Alliance
- Drug Policy in Latin America
- Industrial Policy
- Biden’s Agenda.

LOCAL COMPETITION

To prepare for local AWQ competitions WACA recommends that students study the following topics from FPA High School Magazine Editions for Great Decisions. Questions for the local AWQ competition may be derived from the magazines, including the videos and links provided in both editions:

- Climate Change (Issue 11: 05/22)
- The New Space Race (Issue 9: 02/22)

NATIONAL COMPETITION

The Great Decisions 2022 Briefing Book is required study material for the AWQ National Competition. For the 2023 AWQ National Competition, questions will be drawn from the following four Great Decisions 2022 Briefing Book topics:

- Changing Demographics
- Drug Policy in Latin America
- Myanmar and ASEAN
- Outer Space

The Briefing Book will be made available at a later date through the World Affairs Councils of America to the Member Councils participating in the National Competition.
Known as the “cradle of humanity and located in the Horn of Africa, Ethiopia is Africa’s oldest independent country. With Africa’s second largest population, Ethiopia represents a melting pot of ancient cultures from the Middle East and Africa. Following a past wracked with military rule, civil war, and catastrophic famine, Ethiopia emerged as a major power in the Horn of Africa during the 21st century, enjoying rapid economic growth and increasing strategic importance within the region. The economic growth of Ethiopia in recent years has been stunted with the outbreak of conflict in the Tigray region in 2020, and the rise of food-insecurity in response to grain shortages caused by the Russian-Ukraine War. This topic will focus on an overview of the state; an introduction to the U.S.-Ethiopia relations; the Tigray conflict that has shaped the country’s foreign policy; and the impact the Russian-Ukraine War has had on Ethiopia.

**Overview and History**
- **Ethiopia** – Britannica. Read the following sections:
  - People
  - Cultural Life
  - Government and Society
- **Ethiopia** – CIA World Factbook. Read the following sections:
  - Introduction
  - Transnational Issues
- “Ethiopia: East Africa’s Emerging Giant” Claire Klobucista, CFR – November 4, 2020

**U.S.-Ethiopian Relations**

THE FUTURE OF SUPPLY CHAINS

The International Labour Organization (ILO) is a specialized agency of the United Nations. It was created by the Treaty of Versailles in 1919 following the devastation of WWI. The beginning of the 20th century was a time of tremendous change due to the Industrial Revolution, social change, and competing economic models. The ILO was created with the idea that promoting social justice is essential to universal and lasting peace.

Supply chains around the world have experienced unprecedented disruption due to COVID-19, the rise of e-commerce, the digitalization of industry, and the ongoing U.S.-China trade war. In response, we have witnessed businesses working to keep pace with breakneck technological advancements, while also developing initiatives to create sustainable supply chains. For this topic, we will explore how companies are working alongside nations to ensure that rights are protected while also fighting to meet the growing demands as we enter the post-pandemic world.

SOURCES

On a trip to Taiwan in August 2022, Speaker Nancy Pelosi stated: “Today, the world faces a choice between democracy and autocracy. America’s determination to preserve democracy here in Taiwan and in the world remains iron-clad.” With the invasion of Ukraine by Russia, we witnessed the alarming threat to democracy as authoritarian forces reached across borders to spread their regime. We have also witnessed recent events of democratic countries pushing their ideals into the realm of global politics, notably Speaker Pelosi’s recent trip to Taiwan. In this topic, we will investigate how autocracies and democracies are playing for power in the realm of global politics.

CURRENT EVENTS

For the Current Events category questions are composed only of Weekly World News Update (WWNU) newsletters created by WACA.

To view the required WWNU newsletters from WACA’s website, select the “Newsroom” tab, view the “World Briefing” box and select 2022 and 2023 from the archive dropdown menu. Subscribe here or scan the QR code.

LOCAL COMPETITION

To prepare for local AWQ competition Current Event section WACA recommends that students study the Current Events sources for the local competitions will be composed of only Weekly World News Update (WWNU) newsletters between August 1, 2022 and October 31, 2022.

NATIONAL COMPETITION

Current events sources for the National Competition will be composed of only Weekly World News Update (WWNU) newsletters between January 1, 2023 and March 31, 2023.
The World Affairs Councils of America takes no institutional positions on matters of policy. Any opinions expressed in the resources are the views of the authors.
