Quito Transfers in - airport/hotel

Welcome to Quito and Ecuador! At the airport, you will be greeted by a representative, who will escort you all the way to your hotel, giving you a short briefing about Quito and the country in general with valuable information you need to know. Enjoy scenic colonial and artistic Quito, visit museums, monasteries and the golden altars of its many churches. Stand with a foot on each hemisphere on the Middle of the World memorial. The capital of Ecuador has a setting that few cities in the world can match. During the 13th century it was the prosperous center of the Kingdom of Quitus. It later became the northern capital of the Inca Empire. In the 16th and 17th centuries, Colonial architects built formidable temples, monasteries and mansions, creating an urban jewel designated by UNESCO/UN as a World Cultural Heritage Site. Quito’s artistic creativity awaits the visitor in cosmopolitan

galleries and boutiques filled with contemporary paintings, sculptures and exquisite traditional crafts.

**Casa Gangotena Luxury Hotel**

Plaza View King Room

The capital of Ecuador’s historic heart is a living treasure – the largest, best-restored in the Americas – benefitting from over \$250 million in cultural heritage investment over the last decade. It has become one of the ‘discovery’ destinations in Latin America, earning the praise of visitors and press alike for its stunning churches and sights, compelling museums and cultural centers and its approachable, friendly feel.

**Day 2 - QUITO - Friday, August 9**

**(B/L/-)**

**QUITO OLD TOWN**

We head out for a walking tour of the Old Town, intent on understanding more about the people who live in the largest and best-restored historical center in the Americas. We begin by meeting our local resident guide, part of a grassroots NGO organization that has created a walking tour of its Quito neighborhood, called San Roque. The guide takes us through the nearby streets, stopping to meet artisans, shopkeepers, hat makers and sweet confectioners. Up the hill on Calle Rocafuerte, we explore the San Francisco Market, one of the oldest in the capital. Here, we learn all about the fruit and vegetables produced in Ecuador and some culinary traditions.

We also have the chance to meet and learn from one of the local herbal healers who have locales in the market.

From the market, we walk downhill to the emblematic street of La Ronda, considered one of the flagship regeneration projects in the city. It's a quiet, cobbled street with typical balconies overflowing with geraniums. Here we visit the Manos en La Ronda project and meet artisans in the workshops. We then visit the chocolatier on the ground floor, where we enjoy a snack and have a chance to discover and taste the finest chocolate in the world – which, of course, comes from Ecuador..!

From La Ronda, we walk northwards through the handsome streets of the Old Town to the Plaza Grande, the political heart of the city. Following a brief explanation, we stroll to the Jesuit church of La Compañía with its stunning gold-leaf interior. Returning back to Plaza San Francisco, we visit the church, choir and pretty patios of the Franciscan order before arriving at Casa Gangotena, on the same square, for a lunch of Ecuadorian specialties prepared by the hotel's talented chefs.

In the afternoon, we cross the street to the excellent Casa del Alabado Archaeological Museum. It houses a fantastic collection of pieces dating back some 5,000 years, arrayed beautifully within a restored 17th-century colonial mansion.

This tour also includes a visit to a panoramic viewpoint to appreciate Quito in all its Andean splendour.
