

# ACE MENTOR PROGRAM

ARCHITECTURE • CONSTRUCTION • ENGINEERING

## STUDENTS

### For ACE Students, the Design and Construction Industry comes to you!

The ACE Mentor Program Houston is open to any high school student who has the curiosity and drive to learn about a career in design and construction — from contracting and engineering to architecture and landscaping.

Already, thousands of students have enjoyed the exciting projects, informative field trips and other engaging activities that make up the ACE experience free of cost and without any GPA requirements for participation.

### Virtual Mentorship: Led by mentors. Driven by you.

As an ACE Mentor participant, you'll join your fellow students in weekly live remote learning sessions led by adult mentors who are practicing industry professionals. These sessions will feature interactive activities, guest speakers and virtual site visits. We understand the current health crisis has affected all of our day-to-day lives, and ACE Mentor is dedicated to creating a safe, convenient learning environment without sacrificing the quality of the hands-on mentorship and learning opportunities that makes this organization great. To that end, we may be able to provide technology resources to students that have no (or limited) access to technology, upon request.

### What to expect.

In these remote sessions, professionals will give you virtual tours of offices, job sites and other relevant locations. You'll have the opportunity to try your hand as an industry professional with an actual design project. You'll discuss the same issues, and perform the same tasks from home, as if you worked in the industry. ACE gives you a practical hands-on view of how abstract concepts get transformed into the buildings that make up our everyday reality.

### Opportunities abound.

In ACE you will learn different construction industry careers and discover which one is right for you. It's also a great way to network, not only with peers that share the same passion, but with professionals and university representatives within the industry. ACE provides scholarship opportunities for you to pursue your dreams and the connections you make could lead long lasting friendships and jobs in the near future.
