Our Mission...

Rutgers Health: University Behavioral Health Care is dedicated to a mission of excellence that includes the delivery of evidence based and compassionate behavioral health and addiction services to individuals and families across New Jersey, advancing the science through programmatic research, and educating the next generation of health care professionals.

We are committed to being a leader of effective, compassionate and accessible care that is informed by research and education.

How to Access Services

Getting help is simple. Individuals can walk in at any time, or be referred by first responders, healthcare providers, or community partners. Our team will provide an immediate assessment and begin care right away in a safe and supportive environment.

About the Program

The Crisis Receiving and Stabilization Center provides immediate, short-term support for individuals experiencing a mental health or substance use crisis.

Open 24 hours a day, 7 days a week, our team offers a safe, respectful, and supportive environment where individuals can receive care, stabilize, and begin to feel better. Services include assessment, counseling, medication support, and connection to ongoing care — all focused on helping each person move forward in their recovery.

Individuals will be welcomed by our team and quickly connected with a nurse and a clinician for an initial assessment and then may stay for a short period of time (up to 24 hours) in a comfortable, supervised setting while receiving care.

Services include...

- Immediate assessment and support
- Crisis counseling and de-escalation
- Medication evaluation and support
- Support for mental health and substance use needs
- Connection to ongoing care and community resources
- Coordination with family and supports (with permission)
