

A small investment of your time could change a child's lifetime

CanREACH

SCREEN AND MANAGE CHILD MENTAL HEALTH PROBLEMS IN YOUR PRIMARY CARE PRACTICE

CanREACH offers training to primary care providers in effective and evidence-based mental health assessment and intervention to help transform practices, increase productivity, and improve work satisfaction. CanREACH is proud to offer the REACH Institute's Patient-Centered Mental Health in Paediatric Primary Care (PPP) Program. This continuing medical education course focuses on proven assessment, engagement, and treatment planning including safe and effective use of pediatric psychopharmacology.

This Group Learning program has been certified by the College of Family Physicians of Canada for up to 81 Mainpro+ credits. This event is an Accredited Group Learning Activity (Sec1) for 24.50 credits and an Accredited Self-Assessment Program (Sect3) for 6.50 credits as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, and approved by the University of Calgary Office of Continuing Medical Education and Professional Development.

UPCOMING VIRTUAL SESSIONS

September - December 2022

Virtual Workshop:

September 9th & 10th, 2022

Followed by a condensed 3-months
of weekly case consults.

OUT OF PROVINCE REGISTRATIONS

CanREACH gives priority to residents of Alberta. If you do not practice in Alberta, please do not complete the payment process.

We will be in contact with you to discuss availability once you have submitted this form.

HIGHLIGHTS

Affordable and Local

CanREACH is offered across Alberta at a minimal cost due to grant funded support. Cost is \$800.

CanREACH Program

Promoting paediatric mental health literacy in primary care along with self-efficacy in primary care providers through training, support, consultation, and resourcing, including the PPP mini-fellowship training.

Condensed PPP Mini-Fellowship

Participants learn the core essential skills of evidence-based practices in pediatric mental health in primary care via an interactive 2-day conference followed by weekly clinical case zoom conferencing.

You will learn how to:

- Engage and partner with patients and communities
- Identify / differentiate child mental health problems
- Effectively screen and monitor for concerns and progress
- Create and implement a treatment plan
