CanREACH Application

Bow Valley PCN has prioritized a grant received via the Calgary Zone PCN Mental Health Task Force to reimburse registration fees for up to 12 PCN MD members to participate in the CanREACH training program. Funding has been extended to include two courses in 2022 and is available for 3 additional Bow Valley PCN Physician members.

CanREACH is an accredited, patient-centered mental health in pediatric primary care program, adapted for Canadian Primary Care Providers. The goal is to support management of pediatric mental health needs in primary care. CanREACH is currently delivered virtually and consists of two components:

1. A 3 day workshop - a dynamic, interactive 3 day (15 hour) course using intensive face-to-face teachings and hands-on practice. Topics include assessing/treating anxiety, depression, ADHD, aggression and more.
2. 6 months of bi-weekly calls – an ongoing case-based program where participants are divided into smaller groups. Participants meet to apply weekend learnings to real patient cases in their practice.

There are two options to participate in the CanREACH training program in 2022:

- o January 28 and 29, 2022 (followed by 6 months of bi-weekly case consultations)
- o May 13 and 14, 2022 (followed by 6 months of bi-weekly case consultations)

Bow Valley PCN Physician members with pediatric populations are invited to apply to have the \$800 registration fee reimbursed by the PCN following completion of weekend course.

PCN MD Member Name: _____ **Clinic:** _____

Please indicate which session(s) you are available to attend (*select all that apply*):

_____ January, 2022 _____ March, 2022

Please describe how your panel of patients will benefit from you participating in the CanREACH program?

Physician Name (please print)
