

Life. Career. Balance.

EXPERIENCE IT. ONLY AT SOUTHLAKE.

At Southlake, we've created something special ... A big city hospital that hasn't lost its community heart. A place where teamwork is the norm and new leaders are continually discovered. An environment where you can put your skills to work today, while advancing towards your goals for tomorrow. A collegial workplace focused on achieving work-life balance. If you are committed to excellence, passionate about making a difference, and looking for a place where your career can flourish, come join us.

Our team of nearly 6000 staff, physicians, volunteers, students and Patient and Family Advisors are committed to creating an environment where the best experiences happen. As a recognition of our commitment to quality and patient safety, we have received the highest distinction of Exemplary Standing from Accreditation Canada.

CARDIAC SURGEON

Southlake Regional Health Centre is seeking to fill a position for a full-time cardiac surgeon with specialized training and experience in mitral valve repair. The successful applicant would join an existing group of four cardiac surgeons sharing a volume of approximately 1,000 open cases that is expected to grow.

Southlake is a Ministry of Health and Long-Term Care designated and funded Regional Cardiac Program serving 1.5 million people and 10 hospitals in York Region and North Simcoe Muskoka. Our services are comprehensive, including primary PCI, world firsts in electrophysiology techniques, minimally invasive cardiac surgery, sutureless valves and a rapidly expanding structural heart program including TAVR and MitraClip. Southlake's cardiology staff includes groups sub-specializing in interventional, electrophysiology techniques, critical care cardiology, and advanced heart failure. We also provide surgical services for cardiologists located at partner hospitals in the region including a cath lab at Royal Victoria Hospital in Barrie, Ontario.

The successful candidate must be licensed to practice cardiac surgery in the province of Ontario, Royal College certified and experienced with most aspects of cardiac surgery including revascularization, valve repair and replacement, and aortic surgery. A proven track record and/or specialized training in mitral valve repair is essential. Specialized training in mitralclip and/or aortic disease and surgery would also be an asset. There is an opportunity for the successful candidate to assume a leadership role in the Division of Cardiac Surgery depending on qualifications and experience. There are opportunities for teaching and clinical research at Southlake and in conjunction with the University of Toronto. Compensation is through fee-for service OHIP billing and MOH on-call stipend.

To join our dedicated team, please forward a letter of interest, along with your curriculum vitae, to:

Deb Green
Medical Affairs Associate
Southlake Regional Health Centre
596 Davis Drive
Newmarket, ON L3Y 2P9

dgreen@southlakeregional.org

We thank everyone for their interest; however, only those selected for an interview will be contacted.
