

What is  
Appleseed?

Appleseed is a mission community that serves & connects world-changing educators & helps them fulfill their calling.

## Why Appleseed?

- 1.) Because every kid deserves to learn about Jesus from someone who knows them and cares about them.
- 2.) Because the Lord has placed Jesus-loving kid-loving educators in every school. These teachers, coaches, faculty & staff already know and care about every kid.

## Who is Appleseed?

Appleseed is a network of Jesus-loving kid-loving people who believe that to reach young people, we need to start by connecting with & serving educators. To make this happen, there is a volunteer team that connects with and serves educators in your school, church or community. This group is called the **AppleCore**. Any Jesus-loving person who cares about educators & young people can be part of Appleseed! Our primary local leadership, however, is found in the retired educators that desire to invest in the next generation of world-changing educators.
