## The Cove School Summer Program

June 15 - July 28

THE COVE SCHOOL

# THE COVE SCHOOL SUMMER PROGRAM

JUNE 15-JULY 28, 2017

The Cove School is proud to offer a comprehensive summer school program. Classes will be held from 9:00 a.m. to 2:30 p.m. School will be closed on Monday, July 3 and Tuesday, July 4.

Basic academic courses are offered in the morning. (Refer to registration form). Electives and the majority of specialized instruction are offered in the afternoon.

Summer school at The Cove School is a unique experience for students with learning disabilities. Students at Cove feel safe and supported. Students get what they need to learn, and are accepted for who they are.

Summer school at Cove meets a variety of student needs. Some students need to maintain skills previously learned in a variety of subjects. Others need remediation in a particular subject. High school students may need additional credits. Still others may attend because of a requirement by their school district. Whatever the reason, The Cove School meets the needs of the individual student by tailoring a schedule for each child. All classes have a maximum of ten students.

Students may attend for one, two, or all three morning classes. Attending classes in the afternoon only is also an option. Full day attendance combines the academics of the morning with integrated activities in the afternoon. **High school students must take a final exam and complete all assignments in order to receive credit for a class.**

*High School students will receive .25 credit for the elective they select if they attend 27 of the 30 days of instruction.*

## SAMPLE SCHEDULES

9-year-old child		13-year-old child	
9:00-10:00	Reading	9:00-10:00	Reading
10:00-11:00	Mathematics	10:00-11:00	Writing Lab
11:00-12:00	Writing Lab	11:00-12:00	Mathematics
12:00-12:30	Lunch/Phys. Ed.	12:00-12:30	Lunch/Phys. Ed.
12:30-1:30	Basketball Basics	12:30-1:30	Dance Explosion
1:30-2:30	Cooking Plus	1:30-2:30	Coding Adventures

Please read the course selections carefully. **All students need to register for summer school even if they attend Cove during the regular school year.**

**A schedule will be sent home just prior to the first day of summer school.**

New students to Cove need to complete the application form and return it with a deposit. In addition, the most recent evaluation of the child and a copy of their most recent IEP, if applicable, should be sent or dropped off at the Cove School office. This will allow staff to review the child's information to make sure that we can adequately meet their needs.

Welcome to another year of the Cove School's Summer STEAM classes! We are very excited to invite all students to experience the fun and excitement of math, science, technology art, and engineering this summer. Our teachers have planned a variety of hands-on, collaborative, and fun experiences centered around computer programming and coding this year.

Computer programming is the language that powers our digital lives. Through these classes, students will develop an understanding of basic computer languages and their applications in the real world. Employing the Design Thinking process, students will use these languages and tools to solve a series of real-world challenges. Using Block Programming and Javascript, students will design and program apps, robots, drones, and more!

At the conclusion of the summer program, STEAM students will share their programs and codes at an all-school "Demo Slam." Parents, Community Members, and our Technology partners will be invited to celebrate our students' work.

We believe that every student can learn to code, and we can't wait to see the amazing programs they create.

## ONE-TO-ONE AND SMALL GROUP REMEDIATION

Cove also offers a multisensory approach to reading during the afternoon. Students are taught how their mouths look, feel and move when producing letter sounds and combinations of letters. This strategy helps them self-correct when errors are made during reading. The skill is also effective in correcting spelling errors.

Students will also be taught to create meaningful mental images while reading. These mental images become mental movies, filled with color and action. This crucial strategy develops

naturally for some. For others, visualizing needs to be systematically taught to aid in reading comprehension, critical thinking, and language development.

Private remediation in all academic courses is available as well as individual speech/language therapy and occupational therapy.

Class size will be kept small to maximize learning. Sign up early to reserve a place for your child.

*Acceptance is pending approval of Dr. Johnstone.*

**Cost:** See registration form for cost per hour

## THE LEARNING EXPRESS

**Cost:** \$1,750 9:00-12:00 p.m. - five days per week

Hop on board an exciting and motivating learning opportunity. Children will be introduced to multisensory based programs to promote their reading, math and writing skills. Social interaction will be facilitated. A thematic approach will be utilized and pre- and post-testing will occur to demonstrate academic growth. Sign up for this special adventure! This class is for children entering Kindergarten through second grade.

## MORNING COURSES

**Cost:** \$875 per course

**Elementary, Junior and Senior High School Students**

**One Hour Classes - Cost: \$875 per course**

Reading Comprehension, Mathematics, Writing Lab

**Class Length Varies**

Specialized Programs (Wilson/SLANT). *Refer to registration form for cost per program.*

## Elementary/Junior High School Electives —Afternoon Programs

### SURPRISE SCIENCE

Cost: \$875 12:30-1:30 p.m. or 1:30 -2:30 p.m.

Expect the unexpected! Join this science course that includes the understanding of bewildering science phenomenon. Learn how to demonstrate various illusions and amaze your peers!

### TENNIS ANYONE?

Cost: \$875 12:30-1:30 p.m. or 1:30 -2:30 p.m.

This summer join our team as a certified tennis instructor will teach you the basics of the game. In cooperation with our local park district, tennis instruction will be available every day. This is not only a good opportunity to learn the game, but a great way to exercise!

### COOKING - PLUS!

Cost: \$875 12:30-1:30 p.m. or 1:30 -2:30 p.m.

Students will be introduced to a variety of problem solving activities that incorporate various math concepts while they plan menus, follow recipes and present their edible delights to others. Nutrition, food preparation and purchasing will also be covered.

### BASKETBALL BASICS

Cost: \$875 12:30-1:30 p.m.

This class will combine the opportunity for physical activity with learning the rules of the game of basketball. Sportsmanship and teamwork will be emphasized. Drills and competitive games will be conducted on a daily basis.

### ELEMENTARY ROBOTICS

Cost: \$875 12:30-1:30 p.m. or 1:30 -2:30 p.m.

**ELEMENTARY** - Students will use problem solving, teamwork, and programming to succeed in design challenges and interact with various types of robots. This class will provide exciting ways for students to understand the role of mathematics in robotics, while discovering real-world connections and applications of robotics.

### EXPRESSIVE AND UNIQUE

Cost: \$875 1:30 -2:30 p.m.

Do you like expressing yourself through various forms of art? If so, then this class is for you. We will be studying art from around the world. Students will be introduced to various mediums and create beautiful masterpieces. An art therapist will also co-teach the class.

### CODING ADVENTURES

Cost: \$875 12:30-1:30 p.m. or 1:30 -2:30 p.m.

Students love to code, and this is their chance to dive right in and learn what it takes to code their own programs. This course will provide students the chance to learn about coding using real-world themes and activities that are accessible to all levels of learners.

### WHERE IN THE WORLD?

Cost: \$875 12:30-1:30 p.m. or 1:30 -2:30 p.m.

Traveling through the US, students will keep a picture scrapbook of their visits to historical landmarks, national parks, roadside attractions and water parks. Our travel activities will include detective adventures with clues, solving puzzles, and interactive games. Technology is a cornerstone of this exciting virtual adventure. No need to pack!

### DANCE EXPLOSION!

Cost: \$875 12:30-1:30 p.m.

Come join Dance Explosion where you will learn new dances, choreograph your own routines and use props such as ribbons, hula-hoops and more. You will gain muscle control, align your body, advance your flexibility and listen to your favorite music!

### TRIPLE THREAT

Cost: \$875 1:30-2:30 p.m.

Groups of students will be going through their paces of becoming a music theatre: 'triple threat'. Our weeks will be spent rotating between acting, dancing, singing and rehearsing our short musical show. Classes will be led by choreographers, stage and music experts. We will also have the support of a music therapist.

## High School Electives—Afternoon Programs

### ART APPRECIATION

Cost: \$1,300 12:30-1:30 p.m.

Students will be exposed to a variety of art projects that promote their self-expression. In addition, information about famous artists and their techniques will be discussed. An art therapist will co-lead this class.

### BUSINESS AND COMMUNITY

Cost: \$2,500 12:30-2:30 p.m.

This course will focus on understanding maps and public transportation schedules to plan field trips. The students will develop fundamental map skills and find directions from home to Cove by studying traditional maps, globes and using on-line programs. *There may be an additional fee for field trips.*

### DESIGN AND INNOVATION

Cost: \$1,300 12:30-1:30 p.m. or 1:30-2:30 p.m.

This course uses engineering design activities to help students understand how criteria, constraints, and processes affect design solutions and provide students with the skills to systematically assess technological developments or solutions through brainstorming, visualizing, modeling, constructing, testing, and refining designs.

### LITERATURE LEADERS

Cost: \$1,300 12:30-1:30 p.m. or 1:30-2:30 p.m.

This class uses literature written by authors who share a particular characteristic such as religion, culture, or gender. Students determine the underlying assumptions and values within the selected works, reflect upon the influence of a commonalities, and compare the points of view of various authors. Oral and written compositions encouraged.

## BASKETBALL BASICS

Cost: \$1,300

1:30-2:30 p.m.

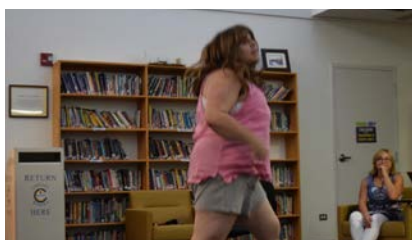

Sportsmanship and teamwork will be emphasized. Drills and competitive games will be conducted on a daily basis. This class will combine physical activity with learning the rules of the game of basketball.

## MUSIC VIDEOS

Cost: \$1,300

12:30-1:30 p.m.

Students will use Garage Band, photographs, and video to create original summer scrapbook of favorite and original music. Student projects will be presented at the end of the summer. Our music therapy staff will help define and refine our remarkable projects. This is a 'thinking' musician's summer of self reflection, images and music!

## WORK STUDY

Incoming juniors and seniors in high school can enroll for internships at local community businesses. A job coach will be provided as necessary, and special permission is required. Please contact Dr. Robin Johnstone or your child's transition counselor.

## ENROLLMENT

For more information and admissions, contact Dr. Robin Johnstone, Clinical Director, at 847-562-2100. Dr. Johnstone can also be reached by email at [rjohnstone@coveschool.org](mailto:rjohnstone@coveschool.org).

Students new to Cove must submit their most recent IEP and diagnostic evaluations for placement in the program. **All new and private pay students should fill out the online registration form found in "quick links" on the Cove website at [www.coveschool.org](http://www.coveschool.org). Private pay students can mail in a non-refundable deposit of \$200 made payable to The Cove School by May 15, 2017.** The balance of tuition is due June 15, 2017.

Lunch and transportation are not included in the tuition. Private pay parents are responsible for their child's transportation. Students who receive funding from their school districts also need to fill out the registration form.

## TENNIS ANYONE?

Cost: \$1,300 12:30-1:30 p.m. or 1:30 -2:30 p.m.

This summer join our team as a certified tennis instructor will teach you the basics of the game. In cooperation with our local park district, tennis instruction will be available every day. This is not only a good opportunity to learn the game, but a great way to exercise!

## LUNCH

(12:00 p.m.—12:30 p.m.)

A student who attends the Cove Summer School Program for a full day will have approximately 30 minutes for lunch. If students finish early, they will be offered some supervised physical activity. The students will engage in sensory based games that will promote social skills, motor planning skills and physical endurance. All activities will be appropriate for the child's age and ability.

**Hot lunch will be available on a daily basis. Forms can be found on the link called "Marla's Lunches" on the Cove website in the Virtual Backpack.**
