MOHAWK COLLEGE ENTERPRISE

FANUC Education Robot Training Provider

An extension of FANUC training. The quality of curriculum, delivery, and effectiveness of results, is a mirror of FANUC delivered courses.

FANUC Canada provides consistent training to its customers nationwide and provides local training options to minimize associated travel and training costs.

Interactive, FANUC Education Robot Training instructor-led courses are offered at the FANUC Robotics lab on the Fennell Campus at Mohawk College in Hamilton, Ontario.

Training

- 32 hour HandlingTool Operation & Programming course (over four, 8-hour days)
- General or FANUC ASI (Authorized System Integrator) enrollment
- FANUC training instructors
- LR Mate 200iD/4S and CR-7iA/L robots (Training on M1 Series of robots available upon request & demand)

Equipment

- Small, flexible and can work right by your side
- Takes care of light (up to 7 kg) of repetitive tasks
- Long reach of 911 mm
- Available in standard and long arm
- Capable with FANUC iRVision

- Extremely compact, designed for confined spaces
- Lightest model in the LR Mate range at only 20kg
- Load capacity of 4kg with a reach of 550 mm
- Fast handling at very high speeds

No experience necessary. We will train you! More [HERE](#).
