1020-1025, U.S. EST	Moderator Comments Moderators, USA & Gabon
1025-1045, U.S. EST	Symbolic Handover to United Kingdom USA, Gabon, UK
1045-1100, U.S. EST	Closing Moderators, USA & Gabon

Plenary Overview

About the G7++ Friends of the Gulf of Guinea Plenary Meeting

The United States and Gabon are pleased to co-host the 2020 plenary meeting of the G7++ Friends of the Gulf of Guinea. While the Covid-19 pandemic prevented us from meeting in person in Libreville, Gabon, as originally scheduled, this virtual platform allows us a powerful way to connect and maintain momentum on the important work of the FoGG to support efforts in West and Central Africa to improve maritime security.

The goal of this three-day plenary is to give structure to the G7++FoGG and the Virtual Working Groups (VWGs) to give all members a dedicated forum to identify and work cooperatively on issues that affect the functioning and advancement of the Yaoundé Architecture.

On the first day, senior leaders from the United States, Gabon, and key regional and international organizations will offer their perspectives on the main challenges to maritime security and reaffirm their support for the Yaoundé Architecture. On the second day, presenters focus on specific aspects of an identified challenge, offering the FoGG membership a common lens with which to view the issue, and providing the virtual working groups a starting point to take a deeper look at the issues throughout the year ahead. On the final day, we will delve into the initiatives offered to address the region's maritime challenges. This day will be interactive with the working groups, with the aim of providing the groups feedback from the membership to inform their work in 2021.

The first and second days of the plenary will consist of a combination of pre-recorded and real-time remarks with moderator comments throughout, on a webinar platform. Attendees are encouraged to submit questions via the chat function during the presentations. The final day will consist of a series of live interactions with each of the virtual working groups, in which questions submitted by the attendees will be addressed in the appropriate VWG and a Plan of Work for each will be discussed and documented.

Simultaneous interpretation with French, Portuguese, and Spanish will be offered throughout the event.

About the G7++ Friends of the Gulf of Guinea

On 25 June 2013, twenty-five West and Central African states agreed to cooperate in the repression of transnational organized crime in the maritime domain, maritime piracy, IUU fishing, and other illegal activities. Three regional organizations – The Economic Community of West African States (ECOWAS), the Economic Community of Central African States (ECCAS), and the Gulf of Guinea Commission (GGC) – authored the instrument of this cooperation, called the *Code of Conduct concerning the Repression of Piracy, Armed Robbery against Ships and Illicit Maritime Activities in West and Central Africa*, also known as the Yaoundé Code of Conduct.

With the Yaoundé Code of Conduct as a foundational agreement, a maritime security architecture consisting of international, regional, zonal and country level components was initiated, which became known as the Yaoundé Architecture. These components are: the Interregional Coordination Center (ICC), the Centre Régional de Sécurité Maritime de l’Afrique de l’Ouest (CRESMAO), the Centre Régional de Sécurité Maritime de l’Afrique Centrale (CRESMAC), the Maritime Multinational Coordination Centers (MMCC) of zones A, D, E, F, and G, and the National Maritime Operations Centers (MOC).

Concurrent to the creation of the Yaoundé Architecture, the G7++ Group of Friends of the Gulf of Guinea, also known as FoGG, was created in 2013 during the UK presidency of the G7 to support the Yaoundé Architecture. Since that time, it has been led by a Secretariat based in the country that holds the rotating G7 presidency. In 2015, it was proposed that the G7 country leading the Secretariat be joined by a Yaoundé Code of Conduct signatory in a co-Secretary role.

Mission

The mission of the FoGG is to support the Yaoundé Architecture which was developed under the Yaoundé Code of Conduct. This support takes many forms and is executed through each member’s international assistance infrastructure and could be bilateral or regional, or in partnership with other FoGG members. The FoGG provides a forum for harmonizing the calls for and the delivery of this assistance to enhance the effectiveness of the Yaoundé Architecture.

Membership

As of December 2020, the full G7++ members of the FoGG are: Canada, France, Germany, Italy, Japan, the United Kingdom, the United States, Belgium, Brazil, Denmark, India, Norway, Netherlands, Portugal, South Korea, Spain, and Switzerland, EU, UNODC, IMO, and Interpol.

The signatories of the Yaoundé Code of Conduct members are: Angola, Benin, Burkina Faso, Burundi, Cameroon, Cabo Verde, Central African Republic, Chad, Congo, Democratic Republic of Congo, Cote d’Ivoire, Gabon, The Gambia, Ghana, Guinea, Guinea Bissau, Equatorial Guinea, Liberia, Mali, Niger, Nigeria, Sao Tome and Principe, Senegal, Sierra Leone and Togo.

In addition, the co-Secretaries may invite others to join in an observer status.

Virtual Working Groups

To assist the FoGG in its work, Virtual Working Groups (VWG) were established by the France/Ghana co-Secretariat in 2019. These VWGs were continued under the USA/Gabon co-

Secretariat. World events in 2020, in particular the Covid-19 pandemic, during which in person meetings were not possible, necessitated that these VWGs be strengthened and codified to be the primary platform for FoGG discussions and the main conduit of information to and from the co-Secretariat.

The active working groups as of 01 December 2020 are: VWG 1 – Legal; VWG 3 – Maritime Domain Awareness (MDA); VWG 4 – Education, Training, and Exercises; VWG 5 – Blue Economy; and VWG 6 – Operations. One VWG is suspended until further notice and that is VWG 2 – Finance.
