

# UNITED ROBOTICS

## CREATE RELATIONSHIPS, BUILD BETTER PEOPLE, CHANGE THE WORLD

Whoever said, “science, technology, engineering, and math can’t be fun”, never played with robots. At Innovation Tech we are “programmed” for fun and you and your students and community can be too!

United Robotics is a school-based or community-based robotics club for individuals with intellectual disabilities, physical disabilities, and their typical peers.

Dedicated to creating robotics experiences to provide individuals with disabilities opportunities to make new friends, find new hobbies, learn new skills, and develop independence.

Students who participate in United Robotics will learn robotics, engineering, coding, practice teamwork and communication, and model friendship, and acceptance.

Participating organizations will receive specialized training, organizational resources, and opportunities to participate in United Robotics leagues, scrimmages, and tournaments.

### RESPECT BASIC PRINCIPLES

- Customized Solutions
- Hands - on and easy to use
- Inclusive
- 21st Century Skills
- Change Culture

### ADVANTAGES FOR STUDENTS

- Inspires Further Education
- Student Centered
- Student Engagement
