PROTECT TAM DISTRICT HIGH SCHOOLS WITHOUT INCREASING TAXES

Vote YES on Measure M

Vote YES on M to extend expiring school funding at the current rate to prevent teacher layoffs and limit cuts to academic programs in local high schools without raising taxes.

www.ProtectTamDistrictSchools.org

Since 1989, the five high schools in the Tamalpais Union High School District have benefited from voter approved parcel tax funding that supports challenging academic programs and highly qualified teachers. This funding accounts for over $16 million annually which is 17% of the District budget and is now set to expire. Measure M is critical to prevent devastating cuts that will impact more than 5,200 students.

The District already has reduced its budget by $6 million with cuts to librarians and journalism programs, and reduction of administration, staff, and employee benefits. If current parcel tax funding expires, the District will be forced to cut an additional $16 million. Cuts of this magnitude could include layoffs of over 100 teachers, eliminating advanced placement courses, reducing science, music and arts electives, and cuts to high school athletics.

Voting YES on M will renew local funding at the current annual rate and continue 3% cost of living adjustments to:

- Maintain excellent applied technology, engineering and computer programming courses
- Maintain Advanced Placement course offerings
- Preserve athletics, arts and music electives
- Protect robust science curriculum, including biomedical science, physiology and environmental science courses
- Attract and retain highly qualified teachers

Independent Oversight and Local Control Are Required

- Every penny must stay local and cannot be taken by the State
- Independent oversight and audits are required
- No funds may be used for administrator salaries
- Seniors and low-income people with disabilities are eligible for an exemption

Keep the Tamalpais Union High School District among the best by renewing local funding without increasing taxes. Please vote YES.
