

We are excited to offer an updated app! If you were already using our app, your device may have automatically updated it. You will know if you have the current version if the logo matches this picture (note the St. Paul's logo above the church).

If you are new to the app, or need to update it, go to the App Store or Google Play Store and run the update, or download the app by searching St Pauls UMC AP.

When you open the app for the first time, you will be asked to choose what kind of notifications you would like to receive. By choosing to accept these notifications, it will allow St. Paul's to notify you of new events, sudden changes to the schedule and other important information. Further, you can choose specific group notifications. We will add new groups in the future.

Entering profile information is optional. Enjoy viewing our recorded sermons, and check back for updated content! You will find Push Pay under the "heart" icon. If you were already using the giving feature through our app, your information will not need to be entered again. If you are new to online giving, this is an easy way to give offering and/or special donations throughout the year.
