

Take a test, save a life.

Please consider helping a member of our El Granada community.

Dear Community,

Parry Heavlin, urgently need our help. At just 29 years old, he has been diagnosed with a rare and aggressive form of leukemia. Parry's best chance is a bone marrow transplant. However, finding a matching donor is incredibly challenging.

How Can You Help?

If you are a healthy person between the ages of 18 to 40, please consider taking the time to get tested. It's a simple process—just a quick cheek swab.

Spread the Word

Even if you're not eligible, you can still make a difference. Please reach out to anyone you know who fits the age criteria and encourage them to get tested.

How to Get Tested

Visit the National Marrow Donor Program at **Bethematch.org** for more information and click “Join” to sign up as a potential donor.

Thank you for considering this life-saving opportunity.
Your support means everything to Parry.
