The horrific murder of an innocent American, George Floyd, calls us to speak out in solidarity to condemn these actions. The entire staff of the Westborough Public Schools knows that such acts of violence, racism and hate are unconscionable. We see and feel the anger, grief and fear being expressed. We are committed to the daily work of using the power of education, communication, and community connections to eradicate the intolerable impacts of institutional racism, and implicit biases that negatively impact our Black and Brown neighbors, colleagues, and friends in Westborough and our wider nation. We recognize that no single action will move our country forward to end these deeply embedded issues, but instead the committed daily work of every person reflecting, changing, speaking out, stepping up, and living the values and practices of inclusiveness, equity and love. As educators and citizens we join in the call for change.
