

WESTBOROUGH MASTER PLAN REFLECT - EXPLORE - CONFIRM

FAQs for the Westborough Connects February 2020 Newsletter

What is a Master Plan?

A Master Plan provides vision, direction and a defined achievable future for the town by establishing specific goals and strategies for land use; community appearance and design, housing and neighborhoods, jobs and economic vitality, transportation, public services and facilities, natural resource protection; open space and recreation; history, arts and culture, sustainability, public health and regional coordination.

Who's Involved?

Anyone who lives, and/or works, plays in Westborough is welcome. If you are interested in what the town might look like 20 years from now, your vision is welcome and wanted.

How can I get involved?

There are several ways and you can join in one or all of them...By attending scheduled public meetings. By participating in published surveys. By attending meetings of the Advisory Committee and its Sub Committees. By providing feedback online on the website. By providing feedback at community flip chart forums around town.

I don't have a lot of time to give, but I care about the Master Plan. Can I still contribute my voice? YES. See previous question and be on the lookout for community surveys and future public forum meeting. You can also contact Jim Robbins, Westborough Town Planner at jrobbins@town.westborough.ma.us or 508-366-3055.

How can I keep up to date on the news and events related to the Westborough Master Plan?

Visit the website at <https://westboroughmasterplan.com/>. Notices will also be posted in local news, through town news distribution and through town committees and organizations. Westborough Connects will also provide updates in its newsletter on when public forums and other opportunities for community engagement are scheduled.
