Greetings University of Regina Fall Co-op/Internship Employers!

Here we are, the mid-point of summer, with heat warnings seemingly every second day! We could always use more rain, but we certainly are getting our fair share of sun this summer.

As of August 16th, the University staff will be back to in-person work! Looking forward to seeing some employers back on-campus in the near future!

As we all know, summer fades fast in the Prairies (so enjoy the warmth!), and fall approaches quickly. That means, we are once again still looking for jobs in the fall term - September start.

If you are interested in posting a fall Co-op and/or Internship position, send us the posting in word format to coop.office@uregina.ca

You can also post a position by following this link:

https://www.uregina.ca/careercentre/coop/for-employers/post-job.html

Given the continuing threat of COVID-19, we are encouraging our Co-op and Internship employers to do interviews by phone or Zoom/Skype-call versus an in-person interview. As always, our office will help you facilitate this interviewing process every step of the way. We have a web-page that can provide you some useful information regarding recruiting and hiring students during this time:

COVID RESOURCES

Classes are still on-line for students at the University of Regina for summer 2021 but the staff at Career Education will continue to work remotely and help you interview and hire our Co-op and Internship students for fall.

Call or e-mail; we are here to serve all your student hiring needs!

Fall Co-op Students (available for 4/8/12-months depending on the program):

Business - 10
