

Saskatchewan Library Week

Libraries truly are "Resilient in Changing Times." Many took advantage of the videos that SLA provided and planned programs around the videos, while others planned their own original programs while adhering to all the SHA guidelines.

Over 100 people attended the "Story Stroll" in Shellbrook. The book that was chosen was "The Biggest Pumpkin Ever" by Stephen Kroll.

The book was displayed page by page on laminated poster boards that were placed in the windows and on sandwich boards up and down Main street Shellbrook. To read the story, children, classes and families followed the route.

Participants who registered at the Library received project packets that included crafts, learning activities and props that enhanced the story.

Congratulations, Shellbrook!
