

Working on your training plan for this year? Want to update or develop new skills? Are you or your team involved in tasks related to data collection, analysis and reporting? Statistics Canada is offering introductory professional workshops that may be of interest to you and/or your colleagues in the near future. Below is a summary of the 2019-2020 scheduled workshops being offered:

ABOUT USING STATISTICS AND INTERPRETING DATA:

- Introduction to Basic Statistics (One day)
- Turning Statistics Into Stories (One day)
- Understanding & Interpreting Data (Two days)

ABOUT COLLECTING DATA:

- Survey Sampling & Questionnaire Design (Two days)
- Developing Satisfaction Surveys (Two days)
- Surveys from Start to Finish (Three days)

ABOUT SPECIAL TOPICS:

- Understanding Demographic Data (One day)
- How to use Census Data (One day)
- Canadian System of Macroeconomic Accounts (One day)
- Statistics Canada's Supply-Use Framework (Two days)

We have also attached our Data User Services brochure which outlines not only information about other workshops coming up across Western Canada, but also describes some of the different services that Statistics Canada offers.

If you are interested in attending one of our scheduled workshops, course registrations can be made by the following methods:

Online: <http://www.statcan.gc.ca/cgi-bin/workshop/wst.cgi>

Fax: 604-666-8860
