

### **Saskatchewan Libraries and COVID-19**

The Re-Open Saskatchewan Plan has allowed public libraries to reopen according to provincial guidelines as of June 29, 2020. We understand that it may take a while until libraries are fully prepared to reopen with the proper safety measures, and that the services provided may differ in each area of the province. SLA is monitoring the situation and will continue to provide information as it becomes available.

Meanwhile, libraries across Saskatchewan have been slowly returning to business with curbside pickup, contactless material returns and reopening branches. We have compiled a list of libraries that are currently providing services in Saskatchewan (as of July 25, 2020):

**Chinook Regional Library:** All branches closed to the public.

- Curbside pickup and returns available at most branches.

**John M. Cuelenaere Public Library:** All branches closed to the public.

- Returns available at all branches.
