Title: Community Services Manager

Born and lived: I was born in Saskatoon, but raised in the Estevan and Lampman area. I moved up to Regina during my schooling, and I am currently living in Weyburn.

Professional career and activities: I just finished my undergraduate degree in Film Production at the University of Regina, where I worked as the President of the Film Students' Association, as well as a coordinator for the Living Skies Student Film Festival. I've been working with Southeast Regional Library for the past five years, first as a student page, then as the Summer Reading Club coordinator, then as a summer student at Headquarters, and now as the Community Services Manager for the region!

In my spare time: I love anything to do with crafts, antiquing, music, and filmmaking, of course!

Favorite books:

Anne of Green Gables by Lucy Maud Montgomery

The Witch's Daughter by Paula Brackston

The *Abbingdon Pickets* series by H.C. Hewitt

13, Rue Thérèse by Elena Maoui Shapiro

I'm currently reading: *Dear Evelyn* by Kathy Page, and *Spark Joy: An Illustrated Master Class on the Art of Organizing and Tidying Up* by Marie Kondo

How/where do I see the library industry in five years: Based on how much I've grown accustomed to using the library and its vast amount of services over the *past* five years, I believe libraries will keep expanding in terms of their outreach via technology and media, as well as being an advocate for traditional physical materials. I hope to see even more engagement with programming and Makerspace kits!
