**Multitype Database Licensing Program (MDLP)**

The MDLP Committee was dissolved after the April AGM and replaced by the MDLP Planning and Development Committee (PDC). The new Committee meets monthly and their two subcommittees also meet on a regular basis to work on their assigned projects. The Committee will continue to review the collection and make policy and financial recommendations to the MDLP partners. The Committee was given the authority to make collection changes rather than just recommendations. The PDC is led by Robin Canham (Saskatchewan Polytechnic).
