Speaker:

Merv Weiss grew up in the predominantly German community of Fox Valley in Saskatchewan. The vast majority of the early pioneer homesteaders were Germans who had immigrated from the Black Sea region of old South Russia (today Ukraine). Merv has been actively researching his German-Russian background since the year 2000. To this end, he has made several trips to Ukraine and to Germany. Locating and meeting descendants of his Grandfather's siblings in Germany helped him rediscover his "German-ness".
