

INDUSTRIAL MAINTENANCE

Offering training and assistance in automation, maintenance, information technology, and machining

SIEMENS TIA PORTAL WITH HMI

Introduces the Siemens SIMATIC S7-300 controller and explains the different components of the system. This course includes basic ladder logic instructions and how they are used and programmed. It shows how to configure the PG/PC Interface. It also teaches how to use programming software to obtain information from the process and from the PLC itself. It gives general guidelines on troubleshooting and maintaining a PLC system. It also shows how to edit an existing HMI system. The course emphasizes hands-on laboratory exercises using Siemens SIMATIC S7-300 controller, Siemens HMI, and the TIA Portal Software.

This course is 40 hours in length and is limited to 10 participants. If you are interested in Siemens TIA Portal with HMI, please contact the IMT Team today.

WHY CHOOSE ATN

High Return on Investment

- Client Reported

Client Satisfaction

- Focus on Client Success

Trusted Local Partner

- Communities in Alabama

Staff Experience

- 1,000+ Combined Years in MFG

Deep Resource Pool

- Colleges, Universities, MEP's

Customized Service

- To Fit the Needs of Clients

On-Site Delivery

- In-plant; Local Venue; Portable

Flexible Scheduling

- Based on Clients Needs

Accountability

- ISO 9001 Certified, Client Surveys
