

ENVIRONMENTAL HEALTH & SAFETY

Focused on customized training to meet your needs, and technical assistance to ensure compliance is not only met but often times exceeded.

EMERGENCY PREPAREDNESS SOLUTIONS

Severe weather is a reality for Alabama businesses. While NOAA predicts a near- to below-normal 2026 Atlantic hurricane season, it only takes one hurricane or tornado to significantly impact operations. From high winds and flooding to extended power outages, severe weather can disrupt production, damage facilities, and, most importantly, threaten employee safety.

Preparation is the best defense. Every organization should have a comprehensive Emergency Action Plan (EAP) that outlines evacuation procedures, shelter locations, communication methods, and business continuity strategies. Regular employee training and emergency drills help ensure everyone knows how to respond before severe weather strikes.

Businesses should also take time to identify safe shelter locations, review insurance coverage, secure important documents, assemble emergency supplies, and stay informed through trusted weather alerts. These simple steps can reduce downtime, improve recovery, and help protect your greatest asset—your people.

ATN's Environmental, Health & Safety team can help your organization prepare through site-specific severe weather assessments, emergency planning, and employee training. Investing in preparedness today strengthens workplace safety, minimizes operational disruptions, and helps keep your business ready for whatever the season brings.

WHY CHOOSE ATN

High Return on Investment

- \$253.31 Client Reported

Client Satisfaction

- Focus on Client Success

Trusted Local Partner

- Communities in Alabama

Staff Experience

- 1,200+ Combined Years in MFG

Deep Resource Pool

- Colleges, Universities, MEP's

Customized Service

- To Fit the Needs of Clients

On-Site Delivery

- In-plant; Local Venue; Portable

Flexible Scheduling

- Based on Clients Needs

Accountability

- ISO 9001 Certified, Client Surveys
