

INDUSTRIAL MAINTENANCE

Offering training and assistance in automation, maintenance, information technology, and machining

CNC MACHINING

Maximum Class Size: 8 Length: 40 Hours

Our CNC machining solution is a 40-hour course that introduces CNC machining, mills, and/or lathes. Topics include safety, tooling, control features, offsets, loading, and running programs. Common codes and how to write simple programs are also included. At the end of this course, the student should be able to:

- Understand how to safely operate the machine
- Load and edit a program
- Recognize common "G" and "M" codes
- Adjust offsets
- Basic Machine Operation

Please let us know if you would like to schedule a machining course at your facility.
