

BROOKLYN Tech

Dear Families and Students,

I am writing to share exciting news: we have renewed our subscription to the online student resource, Albert.io for the 2020/2021 School Year!

Albert helps students prepare for difficult academic subject tests such as the APs, regents, SAT, and ACT. Students work through interactive engaging practice questions to help them solidify and retain their understanding of key concepts.

Albert will be a fantastic resource for our scholars! Please let me know if you have any questions.

Student accounts have already been created with full access to ALL subjects with their @nycstudents.net email accounts. Students can access Albert by visiting www.albert.io and going to "Log In with Google." They will use their login information provided to them through the DOE.

If you have any questions about getting started, check out these instructions: <https://bit.ly/31PFSPv> Additionally, if questions about the program pop up, students and parents have access to the in-app chat feature on the home page or you can reach the support team M-F 8am-5pm by phone 312-470-2290 Ext. 0 or email at hello@albert.io.
