

Building Strong & Engaged Teams

VIRTUAL TRAINING

As a leader, your goal is to empower your team to perform at their best—driving innovation, resolving conflicts, and solving problems independently.

This training will provide practical tools to leverage your team's strengths, build trust, and develop your unique leadership style. Take a moment to assess your team's engagement. Are they fully invested in their work, or just going through the motions? With only 3 out of 10 employees engaged in the U.S. workforce, this training will help you create a culture where everyone thrives and contributes to success.

This virtual event will be hosted live! We encourage attendance to receive the full interactive experience and get your questions answered by our HR Subject Matter Experts.

Sponsored by the Central Valley Regional HR Hotline.
