

A National Opportunity for Community Pharmacy

ACCESS to Pharmacy Care connects community pharmacies to the CMS ACCESS Model—creating a clear, supported pathway to participate in **outcomes-based care on a national scale**.

What Is CMS ACCESS?

A Medicare innovation model focused on:

- **Paying for patient outcomes—not individual services**
- Expanding **technology-supported chronic care**
- Enabling **continuous, team-based care**
- Improving long-term health for patients with chronic conditions

Why This Matters to Your Pharmacy

More than two-thirds of Medicare patients live with chronic conditions—yet care is often fragmented and episodic.

CMS ACCESS changes that.

It rewards the work you already do:

- Medication optimization
- Adherence support
- Ongoing patient engagement

And creates a way to:

- Get paid for **long-term outcomes**
- Scale your **clinical services**
- Demonstrate your **impact nationally**

Why ACCESS to Pharmacy Care Is Different Simple

- Fits into your existing workflows
- No need to build new infrastructure

Supported

- Training, tools, and onboarding included
- Ongoing support from CPESN + NCPA

Scalable

- Built for **national participation**
- Designed for **long-term sustainability**

No Cost

- **NO FEES** to enroll or participate

How It Works

- GamePlan Medical, a CMS ACCESS participant, serves as the clinical coordinating entity
- CPESN® + NCPA® enable pharmacy participation & support
- Your pharmacy delivers care
- The CMS ACCESS model aligns payment to patient outcomes over time

What You Gain

- New revenue from chronic condition care
- Participation in a national, value-based model
- A platform to prove your clinical impact at scale

Coming Soon

Enrollment: August 2026

Available to: CPESN pharmacies + NCPA members

Belong-to-Both Bonus: Up to \$50 Per-Patient for NPIs that Belong to BOTH NCPA and CPESN.

- **Example:** Cardio-Kidney-Metabolic Track \$20 + Musculoskeletal Track \$15 + Behavioral Health Track \$15 = \$50

Key Takeaway

ACCESS to Pharmacy Care turns everyday pharmacy care into measurable outcomes—and aligns payment to the value you deliver.

Not an NCPA Member or CPESN Pharmacy Yet?

Joining NCPA and CPESN gives you the opportunity to participate and succeed in programs like ACCESS without having to build contracts, coordination, or reporting on your own.

- **CPESN Insights (BI tools)** – Use your pharmacy data to identify patients with chronic **conditions, gaps in care, and opportunities to intervene**
- **National network infrastructure** – Participate in programs like ACCESS without having to build contracts, coordination, or reporting on your own
- **Proven workflows and support** – Translate data into consistent patient engagement, clinical action, and measurable outcomes
