

# Wisdom of Kalaupapa

## Two Module Workshop Series

What was most difficult for you in facing the several crises of the past two years? How was your `ohana affected? Where was God? In these times of pandemic, economic hardship, social upheaval, and environmental crisis, we do well to seek the wisdom of our Kūpuna who faced similar tragedies and hardships in years past. The people of Hawai`i who were thought to have leprosy were exiled to Kalaupapa. They are our Kūpuna and have much wisdom to share. Kūpuna descendants offer their mo`olelo (stories) to **teach and inspire** us in facing trials
