Conquering Challenging Lies

Don't let a bad lie ruin your round. Here is a "hands-on" clinic for intermediate and experienced golfers who want to develop techniques and confidence for getting out of trouble. Ed will demonstrate how to get out of the more difficult situations such as tall grass or heavy rough, uneven lies, how to hit out of a divot and off bare ground, under low tree branches or swing hindrances, and obstructions between your ball and the target.

Participants will have the opportunity to practice each shot and receive immediate feedback. Ed will also discuss rationale for shot strategy and the desired outcome.

**Trouble Shots and Quick Fix Guide is an excellent resource available for purchase in the Superstore.*
