

Amateur Golf — association —

SACRAMENTO, CA

THE RED ZONE SCORING CLINIC

“The Red Zone” is the area on the course from 60 yards and in.

The purpose of this six session class is to accurately evaluate your present skill level using an approach shot scoring system.

There will be an evaluation that allows all players to have a measurable account of their progress. This in turn will give the player the understanding of how to best practice to create sustained improvement in the most critical area of the game for the average golfer, from 60 yards and in.
